CAREER OBJECTIVE:

A motivated and detail-oriented software engineer with a strong foundation in React.js and front-end development, seeking a challenging role in a dynamic and innovative organization. With hands-on experience in building and maintaining complex web applications, performing CRUD operations, and integrating APIs, I aim to contribute to the development of high-performance, user-friendly web solutions that align with business goals and exceed customer expectations. My goal is to continuously learn and grow within a forward-thinking team, leveraging my skills to deliver impactful digital experiences.

EXPERIENCE:

Iolite Technologies Private Limited, Bangalore – *Associate Software Engineer*

September 2023 – Present

- Developed and implemented over 10 dynamic, user-friendly screens using React.js for various modules, including the Student Application, Employee Leave, and Question Bank modules.
- Performed CRUD operations efficiently across multiple modules, ensuring seamless data management and integration with back-end services.
- Integrated RESTful APIs into the front-end, enhancing the functionality and interactivity of the applications.
- Worked collaboratively with back-end developers to synchronize data flow between the front-end and back-end, improving application performance and reliability.
- Contributed to the design and development of reusable components, reducing development time for future screens.
- Actively participated in code reviews and provided constructive feedback, maintaining high coding standards and best practices.

Wingslide Technologies Private Limited, Bangalore – *Web Developer*

September 2021 – December 2022

- Developed and maintained more than 70 responsive company websites, ensuring a high level of functionality and usability.
- Worked closely with the design team to implement responsive web designs using HTML, CSS, and Bootstrap.
- Successfully modified and improved over 30 live websites, ensuring that each site is functional and user-friendly.
- Conducted extensive testing of over 60 web pages to ensure that they meet industry standards for functionality, usability, and performance.
- Designed and implemented new UI elements that greatly enhanced the user experience of the company's webpages.
- I stay up-to-date with the latest web development trends and technologies, continuously improving and updating the company's websites.

EDUCATION QUALIFICATION:
